## ▶ Remind App

- ▶ Can be used in mobile or Computer
  - ▶ Public schools are using this for parent/Student communication
  - ▶ You don't have to know all the parent phone numbers/ Parent doesn't have to know your phone number
  - ▶ You can send group message or individual message
  - ▶ If you have concern about a kid, you can chat with the parent through Remind
-

- After downloading the app, you can create a class (You have to provide a unique name like AustinTamil)
- Then you have to give that unique code to the parents to join the class (The class code is very important)
- You can see how many parents joined and you may need to send reminders to parents so that they will join.
- After that you can start sending messages, pdfs or pictures or anything either from your phone or from your computer.
- Parents can choose the method of communication through their account in remind (It can be Push notifications from remind app, text to your phone or email)
